

Use your creative genes to help highlight groundbreaking genomic (DNA) research!

Project Title	Use your creative genes to help highlight groundbreaking genomic (DNA) research!
Project Summary	Employ and engage your creative genetic makeup to research leverage social media, internet sites, blogs, and videos to develop a comprehensive calendar of local and national events and social media content to promote the Million Veteran Program (MVP) at more than 130 sites across the country.
Country	United States
Country/Region of Focus	United States

Project Description

The Million Veteran Program (MVP) is the biggest research program of its kind IN THE WORLD; brilliant scientists from across the country are looking for ways to personalize how we treat Veterans when they get sick and predict illnesses before they happen. With over 750,000 Veteran partners already enrolled in MVP, we're looking for 2 innovative interns that can effectively research national and local events to develop a calendar of local community and Veteran events that include all event logistics and points of contact that local sites can use to best promote MVP. Through analysis on qualitative research methods, determine selection of the most effective outreach opportunities for sites to leverage. Develop social media content on Veterans to share their amazing stories through social media outlets that align with MVP mission and goals.

Required Skills or Interests

Skill(s)

Data analysis

Data visualization

Marketing

Research

Social media management

Storytelling/blogging/vlogging

Additional Information

Need motivated interns that share a real concern and respect for our dedicated nation's Veterans. You can be part of this groundbreaking research team that is changing the face of healthcare throughout the world. Experience with Veterans, Veteran Service Organizations or military experience is a plus. Scientific and/or medial research experience is not required but a positive attitude and willingness to think about things differently are critical.

Our MVP Online site is getting ready to launch but you can visit <https://www.research.va.gov/mvp/> for more information.
